

Team Meeting Minutes

Q3 Planning Session · July 8, 2026 · Conference Room B

The following notes summerize the discussion held during our quaterly planning meeting. Attendance included representitives from marketing, engeneering, sales, and customer succes. The meeting began with a review of last quater's performance metrics before moving into a broader discussion of priorities for the upcomming quater.

Key Discusion Points

The marketing team reported that lead generaton had increeased by roughly 18% compared to the previus quater, largely attributted to the new content stratagy. However, the sales team noted that conversion rates had remained relatively flat, sugesting a need to revisit the qualificaton process for incomming leads.

Engeneering provided an update on the platfrom migration, which remains on track despite some unforeseen delays related to third-party API changes. Customer succes flaged an increease in support tickets tied to the recent product updat, and the team agreed this should be priorotized before the next release.
